## AVION™ ISKOS-BERLIN 2012

01.2020

A childhood fascination with Zeppelin airships gliding with steady grace across the sky, inspired Iskos-Berlin to create Avion™. The large, oval pendant hovers playfully in the air, ready to change its direction to suit your desire. The pendant emits a soft, diffuse light that creates a cosy, natural atmosphere. Avion™ can be arranged in a regular formation, as a dynamic pack or similarly it can be suspended in a line to mark a passage through a building.

**BULB FICTION™**  
**KIBISI 2012**

**01.2020**

Bulb Fiction™ is close to the classic incandescent bulb, but the shape has been upscaled and designed as a whole unit, uniting socket and bulb into one iconic shape. The same applies to the cord, which has been given extra volume using a thick, white silicone cover. Bulb Fiction™ consists of a hand-blown acid-treated opal glass shade and an aluminium suspension with a soft, organic shape.

## CARAVAGGIO™ OPAL CECILIE MANZ 2005

01.2020

With Caravaggio™ Opal, Cecilie Manz has combined the characteristic design with a completely different lighting effect. The opal glass shade emits a soft, dimmed light, which is particularly suitable for rooms where a more evocative lighting is required. The lamp is suspended by the three well-known shackles, which here form a raw and masculine contrast to the feminine opal hand-blown glass.

## CONCERT™ JØRN UTZON 2005

01.2020

Concert™ gives a pleasant, non-glaring light without compromising the strength of illumination. The chosen shade configuration is visually characteristic of Jørn Utzon and reminds us of his greatest work — the Sydney Opera House. Concert™ is designed with four shades and a parabola of drawn steel, resting on a glass cone suspension. The suspension unit sends out a pleasant, even light between the shades. The bottom shade casts light downward to the parabola, which then diffuses it.

## CROSS-PLEX™ BODIL KJÆR 1961

01.2020

Cross-Plex™ is a great example of Bodil Kjaer's functionalistic expression with its clean and straight lines. It is centred on a cross-base of clear acrylic that creates an elegant play of surfaces and incorporates the cord as a central part of the design. The light from the cubic lampshade, shaped in opal acrylic, create a cosy atmosphere.

# DOGU™ MICHAEL GEERTSEN 2016

01.2020

The name Dogu™ is Japanese and refers to old traditional figurines portraying animals and humanoids. The shade is made of bone china – an exclusive material created from actual bone powder and white clay. The translucent material ensures that the light projects through the shade and renders the lamp light, warm and extremely cosy at the same time.

# LULLABY™ MONICA FÖRSTER 2014

01.2020

The Lullaby™ is formed into a pentagonal, yet slightly organic-looking shape using five slender ash lamellae. The ash gives the diffuse shade stability, shape and character. In addition, the shade has outstanding luminous qualities, which enable the Lullaby™ to emit a soft, muted light.

The Mingus™ pendant is available in six matt nuances. In addition to white, there are five other tones carefully selected by Cecilie Manz: Nearly Black, Very Grey, Pale Moss, Light Celadon and Dusty Limestone. The tones change in different lights and take on the colour of their surroundings.

# RADON™ HANS SANDGREN JAKOBSEN 2010

01.2020

The fundamental geometric forms – the circle and the triangle – are key elements in the design of the Radon™ series. The light from Radon™ is direct and adjustable. The shade is multi-directional and furnished with an asymmetrical reflector, ensuring that light spreads out precisely to the surface where it is needed. The switch is placed at the top of the lamp, while the cord leads discreetly out of the back leg to help preserve the lamp's clean lines.

GamFratesi's inspiration for the Suspence™ lamp series is translating a movement into a physical shape. The infinity diffuser concentrates the light and prevents glare and creates an elegant optical illusion of infinite depth. Suspence™ Nomad is designed to be moved around in the home e.g. on the floor, staircase or terrace, just like a nomad. The lamp is easily carried by the silicone handle at the top.
